

A WONDEROUS FOUNTAIN for the Palace Gardens of the Maharajah of Mysore, India, built of translucent glass and lighted from within by hundreds of electric lights, the many colored rays of which will be projected from concealed sources on the falling waters. The fountain, which will cost close to a quarter of a million dollars and which promises to be one of the world's most beautiful, was designed by Walter D.A. Ryan, the well known electrical engineer, who was responsible for the wonderful illumination at the Panama-Pacific Exposition.

FIRST TO ANSWER AN ALARM OF FIRE. One of the clever new motorcycle fire "engines" in use by the fire department of Milwaukee. It is equipped with about a dozen small extinguishers and has the advantage of being able to turn corners quickly and dash through narrow alleyways. As minutes lost in getting to a fire are costly, the new apparatus soon paid for itself. How does the idea appeal to you, Mr. Drennan?

THE LATEST IN DOG CARTS. The British government, in disposing of the parts of a great number of condemned and dismantled army planes, offered for sale at next to nothing, hundreds of airplane landing wheels—and they were snapped up quickly, largely by youngsters anxious to use them for homemade carts and scooters. Here's what happened to one pair—a first-class, easy running, rubber-tired dog cart.

A GOWN YOU COULDN'T IMPORT. It's Parisian, by Peron, and the back alone is trimmed with three gorgeous birds of paradise gracefully sewn on an overdrape of delicate silk. These wondrous feathers, which are forbidden imports, make this one of the most costly gowns ever created.

Kadel & Herbert

FORSYTHIE TAILORED WAISTS

"See how these furs are ruined"

"—and I took all the trouble to pack them away in a trunk."
"But, my dear, that isn't safe at all," said Mrs. Common-Sense Good-Taste.
"Why don't you use the—"

WHITE TAR GARMENT BAGS

"That's both the safest and the easiest way to protect clothes against moths, mice, dust, germs and dampness. The bags hold anything from a fur to an overcoat. Every garment hangs on its own hanger—three garments to a bag. It's absolutely foolish not to take better care of your things when a few dollars spent for White Tar Bags give you 'life insurance' on thousands of dollars' worth of your family's clothes."

"I suppose it is, but I tried a garment bag and I didn't like it."
"Well you just go into a department store or a drug store and ask for the genuine White Tar Bags. They're different from the others. You'll find them the most convenient things that have ever been invented for protecting clothes. Try one—just for my sake—and I know you will put all your clothes away in White Tar Moth-Proof Garment Bags."

6 SIZES—From 75c to \$2.30
A bag for every style and size of garment from muffs to motor coats.

SIZE	PRICE
